| Project Name | Smart Fashion Recommender Application |

## **Steps:**

## Create a Kubernetes cluster

- Sign in to your <u>IBM Cloud Dashboard</u>.
- Open IBM Kubernetes Service.
- Click Create Cluster.

- Select the **Region** where you want to deploy the cluster, type in a **name** for your cluster, then
- click Create Cluster.
- Select the appropriate cluster type depending on your account.
- It takes some time for the cluster to get ready (around 30 minutes).

• Once the cluster is ready, click on your cluster's name and you will be redirected to a new page with information about your cluster and worker node.

• Click on the Worker Nodes tab to note the cluster's Public IP
